— REAL ESTATE SHOWCASE —

IT'S A JUNGLE OUT THERE

Inside the Roco KI resort community in the Dominican Republic's Punta Cana region, Westin Roco KI Beach & Golf Resort's Jungle Luxe Bungalows feature private covered decks and balconies. Made up of one- and two-story homes, they range from 1,000 to 1,900 square feet, and ceilings rise as high as 20 feet above exotic wood and travertine marble floors. Open kitchens feature KitchenAid Architect Series appliances and andiroba wood cabinetry with granite worktops. Marble and coral stone master baths come with separate double-head rain showers and Westin Heavenly Spa baths. Exotic woods with coconut-woven inlay vanities are topped with granite. Naturally, lucky buyers have full usage of the resort's pool complex and hotel amenities. The Fairmont Roco KI resort will soon offer residential living, too. From \$900,000s. MID-2009.
